

Information, data and facts of Agrobiodiversity Teaching Material

Chapter 1 – AgroBioDiversity Introduction	1
a. Intro: “Agrobiodiversity?”	1
b. What is this course about?	1
c. What is agro-bio-diversity?	1
d. Why agrobiodiversity?	3
e. How did ABD develop?	3
f. What is the present status of ABD?	6
g. Who deals with ABD?	6
h. Summary and outlook	8
i. Further reading	8
Chapter 2 – The Role & Importance of Agrobiodiversity	1
a. Intro to role & importance of ABD	1
b. Ecological, economic and social dimensions	1
c. Summary and outlook	5
d. Further reading	5
Chapter 3 – Economics of ABD: Ecosystem Services	1
a. Definition of ecosystem services	1
b. Why ES in a lecture on ABD?	2
c. Provisioning services	3
d. Regulating & maintenance services	5
e. Cultural services	6
f. Trade-offs and synergies between ecosystem services	7
g. Ecosystem services and economics	9
h. Payment for ecosystem/environmental services (PES)	14
i. Functional ABD	14
j. Summary and outlook	14
k. Further reading	15
Chapter 5 – Agrobiodiversity: Livestock	1
a. Livestock diversity in today’s agriculture	1
b. Origins and distribution of animal genetic resources	3
c. Livestock sector trends	4
d. Importance of local breeds	9
e. Promoting diversity through marketing: pork from landraces	10
f. In situ and ex situ conservation	12
g. Summary and outlook	14
h. Further reading	15
Chapter 6 – Agrobiodiversity: Microbiota and the other small creatures	1
a. Microbial diversity in agroecosystems	1
b. Microbial impacts on agroecosystems	5
c. Agroecosystem impacts on microorganisms	9

d.	Soil microfauna	11
e.	Soil mesofauna	11
f.	Insect diversity: importance for pollination	15
g.	Summary and outlook	25
h.	Further reading	25
Chapter 7 – Agrobiodiversity in Agricultural Systems		1
a.	Traditional vs. conventional agriculture	1
b.	What is agroforestry?	1
c.	History of agroforestry	2
d.	Agroforestry systems	5
e.	Functions of agroforestry systems	8
f.	Examples of agroforestry practices	10
g.	Challenges for agroforestry	14
h.	Success factors	16
i.	Developments in agroforestry: domestication of indigenous fruit and nut trees	17
j.	Summary and outlook	18
k.	Further reading	18
Chapter 8 – Agrobiodiversity and Society		1
a.	ABD and society intro	1
b.	Women in agriculture	1
c.	The connection to agrobiodiversity	7
d.	Women farmers’ specialized knowledge	8
e.	Supporting women (& men) in agrobiodiversity conservation	12
f.	International agreements	14
g.	Summary and outlook	14
h.	Further reading	15
Chapter 9 – Agrobiodiversity and the Law		1
a.	Intro: Overview	1
b.	International legal frameworks and agreements	2
c.	EU legal frameworks and agreements	10
d.	National legal frameworks and agreements in Germany	12
e.	Summary and outlook	13
f.	Further reading	13
Chapter 10 – Agrobiodiversity Research & Education		1
a.	Overview of agrobiodiversity research	1
b.	Biodiversity science and research	4
c.	Specific research projects	7
d.	Agrobiodiversity education & communication	15
e.	Summary and outlook	24
f.	Further reading	25
Chapter 11 – Decline of Agrobiodiversity		1
a.	Overview	1

b.	Causes of agrobiodiversity decline	5
c.	Examples of threatened plants and animals	13
d.	Consequences of agrobiodiversity decline	19
e.	Summary and outlook	20
f.	Further reading	21
